

AIT Grid 12" x 9" Air Injection Technology Assembly Guide

Designed for use with a dual outlet air pump.

- 8—2 1/2" lines
- 3—7 1/2" lines
- 4—3 1/2" lines
- 8—micro tee's
- 4—elbows
- 18—weights

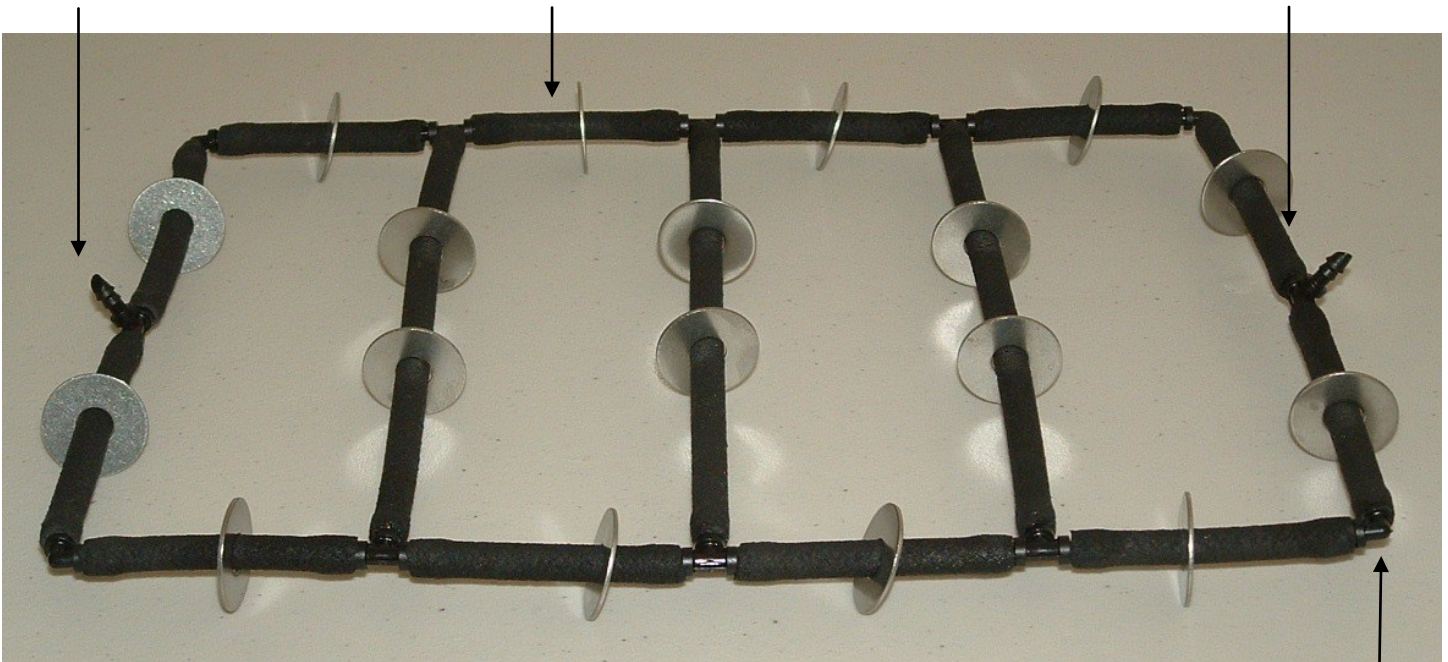

Designed to be used with a dual outlet air pump. The AIT Grid supplies consistent air injection through out the entire 12" x 9". Choose the size AIT to fit your water reservoir and supply huge amounts of air to your plants roots today!

2—tee's to air pump. 1—
on each end.

8—2 1/2" lines, 4 on each side.

4—3 1/2" lines, 2 on each end.

Note: Every where there is a line there is a weight. The 3 seven and a half inch lines in the center get two weights on each line.

4—elbows, one on each corner.

Helpful Hint: Heat up the lines with a hair dryer, makes it easy to insert the micro tee's and elbows.
